

To whom it concerns at the FCC: I benefit daily from listening to XM Satellite Radio and its traffic and weather channels; mostly traffic to help avoid problem locations while traveling in the San Francisco Bay area. Satellite radio provides me the listening variety and quality that is not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to listen to. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
